COMMISSIONER BRASHER REQUESTS VOLUNTARY WEED AND LITTER COMPLIANCE ON EAST CENTRAL

Commissioner Michael Brasher has sent a letter to East Central Avenue business owners and residents requesting their voluntary compliance with the City of Albuquerque Weed and Litter ordinance. The East Central Avenue community is urged to participate in this initiative to improve the appearance of the area between Eubank and Tramway.

“As you may be aware, an effort has been made to declare this area to be a “blighted area” which will result in a reduction in the value of our properties. It is my hope that by coming together as neighbors that we will be able to avoid this declaration. I believe that through our own voluntary compliance with city ordinances that we can improve this area’s appeal as a place to live and do business,” states Commissioner Brasher.
